

A decorative border with a repeating scroll pattern in a gold-brown color frames the entire image.

Le MARQUIS et Les CANICHES

LE MARQUIS ET LES CANICHES

Once Le Marquis wandered around les Tuileries de Versailles, training his poodles how to be submissive and sweet. Nowadays Le Marquis uses the cultural heritage of ‘de Sade’ with present day courtesy resulting in audience interactions with a touch of sadism and the utmost gentleness; his poodles Robespierre and Montesquieu welcome people accordingly.

Imagine the poodles showing their circus skills on command, kids riding the poodles backs, a Marquis demanding applause in an arrogant though funny way and much more improvisational hysteria.

COEN AERTS

Performance artist Coen Aerts mastered interaction as tool to reach transformative potential in the real time, real space moment with the audience.

Invited to step into the reality of another 'epoque', Le Marquis opens up comfort barriers and creates a playful space to explore experiences that once seemed unimaginable.
