MR. VIBES

All the way from planet Vibranus,
Mr. Vibes sets foot on a planet he'd never expect.
The beautiful earth is beyond his imagination and he falls
in love with it straight away.
Enchanted though still on his guard he encounters
the homo sapiens and starts his mission:
engulfing as much love as possible!

COEN AERTS

Performance artist Coen Aerts
mastered interaction as tool
to reach transformative potential in the real time,
real space moment with the audience.

Being invited to step into the reality of another 'entity'
like Mr. Vibes opens up comfort barriers
and creates space to experience things that seemed
unlikely before.

Remember
kissing
through glass
as a kid?

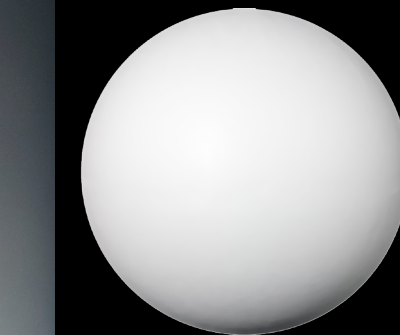

Mr. Vibes combines this
childlike innocence - wearing a
'fishbowl' on his head - with a
vibrating costume.

This makes his tender touch
very intimate though playful at
the same time.
